

## MP<sup>3</sup> 3000 Series

### Product Description

MP<sup>3</sup>™ means Multi-Performance Trilaminate. It is a breathable Nomex® outerwear system designed to excel in all weather conditions. MP<sup>3</sup>™ offers protection from exposure to electric arcs and flash fires as well as reducing worker heat stress. With an available Nomex® fleece lining, MP<sup>3</sup>™ replaces the need for several forms of outerwear.

### Features & Benefits

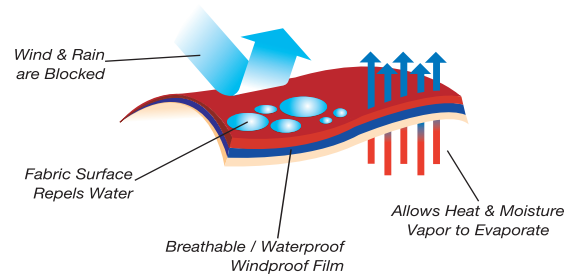

- Electric Arc Resistance
- Flash Fire Resistance
- Chemical Splash Resistance
- Waterproof
- Breathable
- Reduces Worker Heat Stress
- Lightweight
- Wind-Proof
- Designed With Premier Features
- Multi-year Life Cycle

### Recommended Applications

- Electric Utility Transmission & Distribution
- Oil Refining & Processing
- Meter Service
- Electrical Switching
- Telecommunication & CATV Workers
- Chemical Manufacturing & Processing
- Gas Utility Transmission and Distribution
